Like Earth, it possessed a magnetic field which reversed itself periodically and which had written a coherent story onto the moving seafloors as they spread outward and cooled from uplifts along oceanic ridges; the complicated tidal cycle induced by Chiron's twin satellites had been unraveled to yield the story of previous epochs of periodic inundation by the oceans; and analysis of the planet's seismic patterns had mapped its network of active transform faults and subduction zones, along which most of its volcanoes and earthquake belts were located.."I didn't realize anyone got embarrassed about anything anymore.
