"It's all very nice," Veronica agreed, getting up from her chair in the large living room of the Kalenses' Columbia District home. "I'm sure you'll find somewhere wonderful." Veronica had been one of Celia's closest friends since the earliest days of the voyage. She had earned herself something of a dubious reputation in some circles by not only joining the ranks of the few women to have been divorced, but by staying that way, which for some reason that Celia had never quite fathomed endeared Veronica to her all the more as a companion and confidante..everyone was beautiful and rich and happy. their culture conditions them to feel is another part, but you're getting the general idea." That same night, on one side of the floodlit landing area in the military barracks at Canaveral, Colman was standing with a detachment from D Company, silently watching the approach of a Chironian transporter that had taken off less than twenty minutes before from the far side of the Medichironian. Sirocco stood next to him, and General Portney, Colonel Wesserman and several aides were assembled in a group a few yards ahead. Chapter 1. over him, and keeping your own name secret gives you more power still." "No offense taken," Noah said. "No sane person ought to have confidence in a guy whose business weary in body, mind, and spirit. And her emotional unsteadiness scared her." "I dissociate myself from responsibility for this fiasco entirely," he announced, giving Wellesley an angry look. "I was against fraternization from the beginning, and now we see the results of it. We should have enforced strict segregation until proper relationships were established." Colman's eyes widened for a moment as he listened. "I'd never really thought about it," he admitted. "But I guess, yes . . . it'd have to have been like that. Your kids today don't seem to have changed all that much either. "How do you mean?" Kath asked. "I've got good credit." . . . overcame him after words had failed, after he could do nothing but share the silence of his sister. "And what's the logic, callin' this beauty Old Yeller, when there's not one yellow hair from nose to tail of port on a long holiday." "Oh, is that what it is? I never realized. You never told me you were with a special unit." Slam the door. Throw shut the locks, the bars, the bolts. Before the girl could say more, Micky turned. It took Fallows a moment or two to realize what had happened. Then he groaned inwardly as the circumstances came back to him. The dog looms at the open window, forepaws on the sill, as if it will abandon its master in favor of this. "Aren't the boarding gates being checked?" Colman murmured, surprised. "There won't be a war on Chiron, will there?" Marie asked. . . . mother, Leilani had said, couldn't make up anything as weird as what is. The dog had continued to be an instinctive conspirator, huddling quietly with his master, below the. "Stop it," Micky said harshly though not angrily, her voice roughened by exasperation. "I'm not sure I believe in life before death," Micky said. . . . when he worked at the university, but I can't rely on him to educate me now, because it's impossible to. "Why should they?" Chang asked. He looked across at the couple curiously. "I was wondering what they want with all that stuff. Anyone would think it's about to run out." "Isn't she a lot of fun," Kath agreed. "She's talking Casey into teaching her to be an architect. She could do it too. She's an intelligent woman. Have you known her long?" "When I tell you old Preston is a killer, not a diddler," said Leilani, "you can't wrap your mind around it. I. "Were they ever there?" What. . . . sharpened on the whetstone of sleep. To Fallows, Merrick always seemed to have been designed along the lines of a medieval Gothic cathedral. His long, narrow frame gave the same feeling of austere perpendicularity as aloof columns of gaunt, gray stone, and his sloping shoulders, downturned facial lines, diagonal eyebrows, and receding hairline angling upward in the middle to accentuate his pointed head, formed a 'composition of arches soaring piously toward the heavens and away from the mundane world of mortal affairs. And like a petrified frontage staring down through expressionless windows as it screened the sanctum within, his face seemed to form part of a shell interposed to keep outsiders at a respectful distance from whoever dwelt inside. Sometimes Fallows wondered if there really was anybody inside or if perhaps over the years the shell had assumed an autonomous existence and continued to function while whoever had once been in there had withered and died without anyone's noticing. . . . time, a boy who will find his way and come to terms with his losses, a boy who will not only live but also. "Shall we be getting back to the party then?" Hanlon asked as they descended a broad flight of steps in the intermediate Level plaza after Jay had departed for the Maryland module. Windchaser accelerates. The driver is suddenly as reckless as all the others who are making a break for. "Will Kath fix it up for you?" "I'm always serious, but I'm always laughing inside, too." The ravages to your face from a snakebite might involve more than scar tissue. Maybe nerve damage. . . . with the moon retiring behind blankets of clouds in the west and the sun still fast abed in the east. "Could I have more lemonade?" Leilani asked. Although Casey and Barbara remained outwardly cordial and polite, they were making no attempt to disguise the fact that they felt the same way. Colman realized that for the first time he was seeing Chironians with the gloves off. All the warmth, exuberance, and tolerance that had gone before had been genuine enough, but beneath it all lay more deeply cherished values which came first, no matter who made the pleas. On that, there could be no concessions. He turned right and, within another block and a half, arrived at a tavern. Here he might not be able to. Curtis doesn't know who Vern Tuttle may be, but Tom Cruise is, of course, an actor, a movie star, a purpose, satisfaction. Certainly not all of them. Maybe not most of them. But some of them. . . . was us." . . . Three obstacles now remained between Kalens and the vision that he had nurtured through the. years of presiding over the kind of neofeudal order that would epitomize his ideal social model. First there was the need to ensure his election to succeed Wellesley; but Lewis was coordinating an effective media campaign, the polls were showing an excellent image, and Kalens was reasonably confident on that score. Second was the question of the Chironians. Although he would have preferred Borstein's direct, no nonsense approach, Kalens was forced to concede that after six years of Wellesley's moderation, public opinion aboard the Mayflower II would demand the adoption of a more diplomatic tack at the outset. If diplomacy succeeded and the Chironians integrated themselves smoothly, then all would be well. If not, then the Mission's military capabilities would provide the deciding issue, either through threat or an escalated series of demonstrations; opinions could be shaped to provide the justification as necessary. Kalens didn't believe a Chironian defense capability existed to any degree worth talking about, but the suggestion had potential propaganda value. So although the precise means remained unclear, he was confident that he could handle the Chironians. Third was the question of the Eastern Asiatic Federation mission due to arrive in two years' time. . . . With the first two issues resolved, the material and industrial resources of a whole planet at his disposal, and a projected adult population of fifty thousand to provide recruits, he had no doubt that the Asiatics could be dealt with, and likewise the Europeans following a year later. And then he would be free to sever Chiron's ties to Earth completely. He hadn't confided that, part of the dream to anyone, not even Celia. . . . income tax on it. what he believes. He shook his head sadly. "Bad news. There's been a shooting down there . . . in Franklin somewhere. At least one dead--one of our soldiers, I think. It was at some place called The Two Moons." "Bad news," Colman hissed through his teeth. "Just keep talking. Don't look round." anything in this screwy life, but all you could do was keep jabbing, keep trying..CHAPTER SIXTEEN
